

# DID YOU KNOW?

## WE ARE WORKING HARD TO PROTECT YOUR HEALTH IN MORE WAYS THAN ONE

Providing safe and effective wastewater treatment

Participating in wastewater-based disease surveillance

---

## Wastewater surveillance gained popularity during the pandemic, but it is useful for so much more than COVID

In the future, this tool may be useful for tracking influenza, antibiotic-resistant bacteria, *Candida auris* and other pathogens we'd rather avoid.

---

## By collecting wastewater treatment plant influent samples, we protect your individual privacy and your health

We are here to answer any questions about our wastewater surveillance program. Use the information on the back to get in contact with us. And we look forward to keeping you up-to-date on how our efforts to protect your health evolve.

Are you interested in learning more about wastewater surveillance in general? Please visit [nwbe.org](http://nwbe.org), a website maintained by the Water Environment Federation, for more information.
